BSC

LIFESTYLE BOUTIQUE

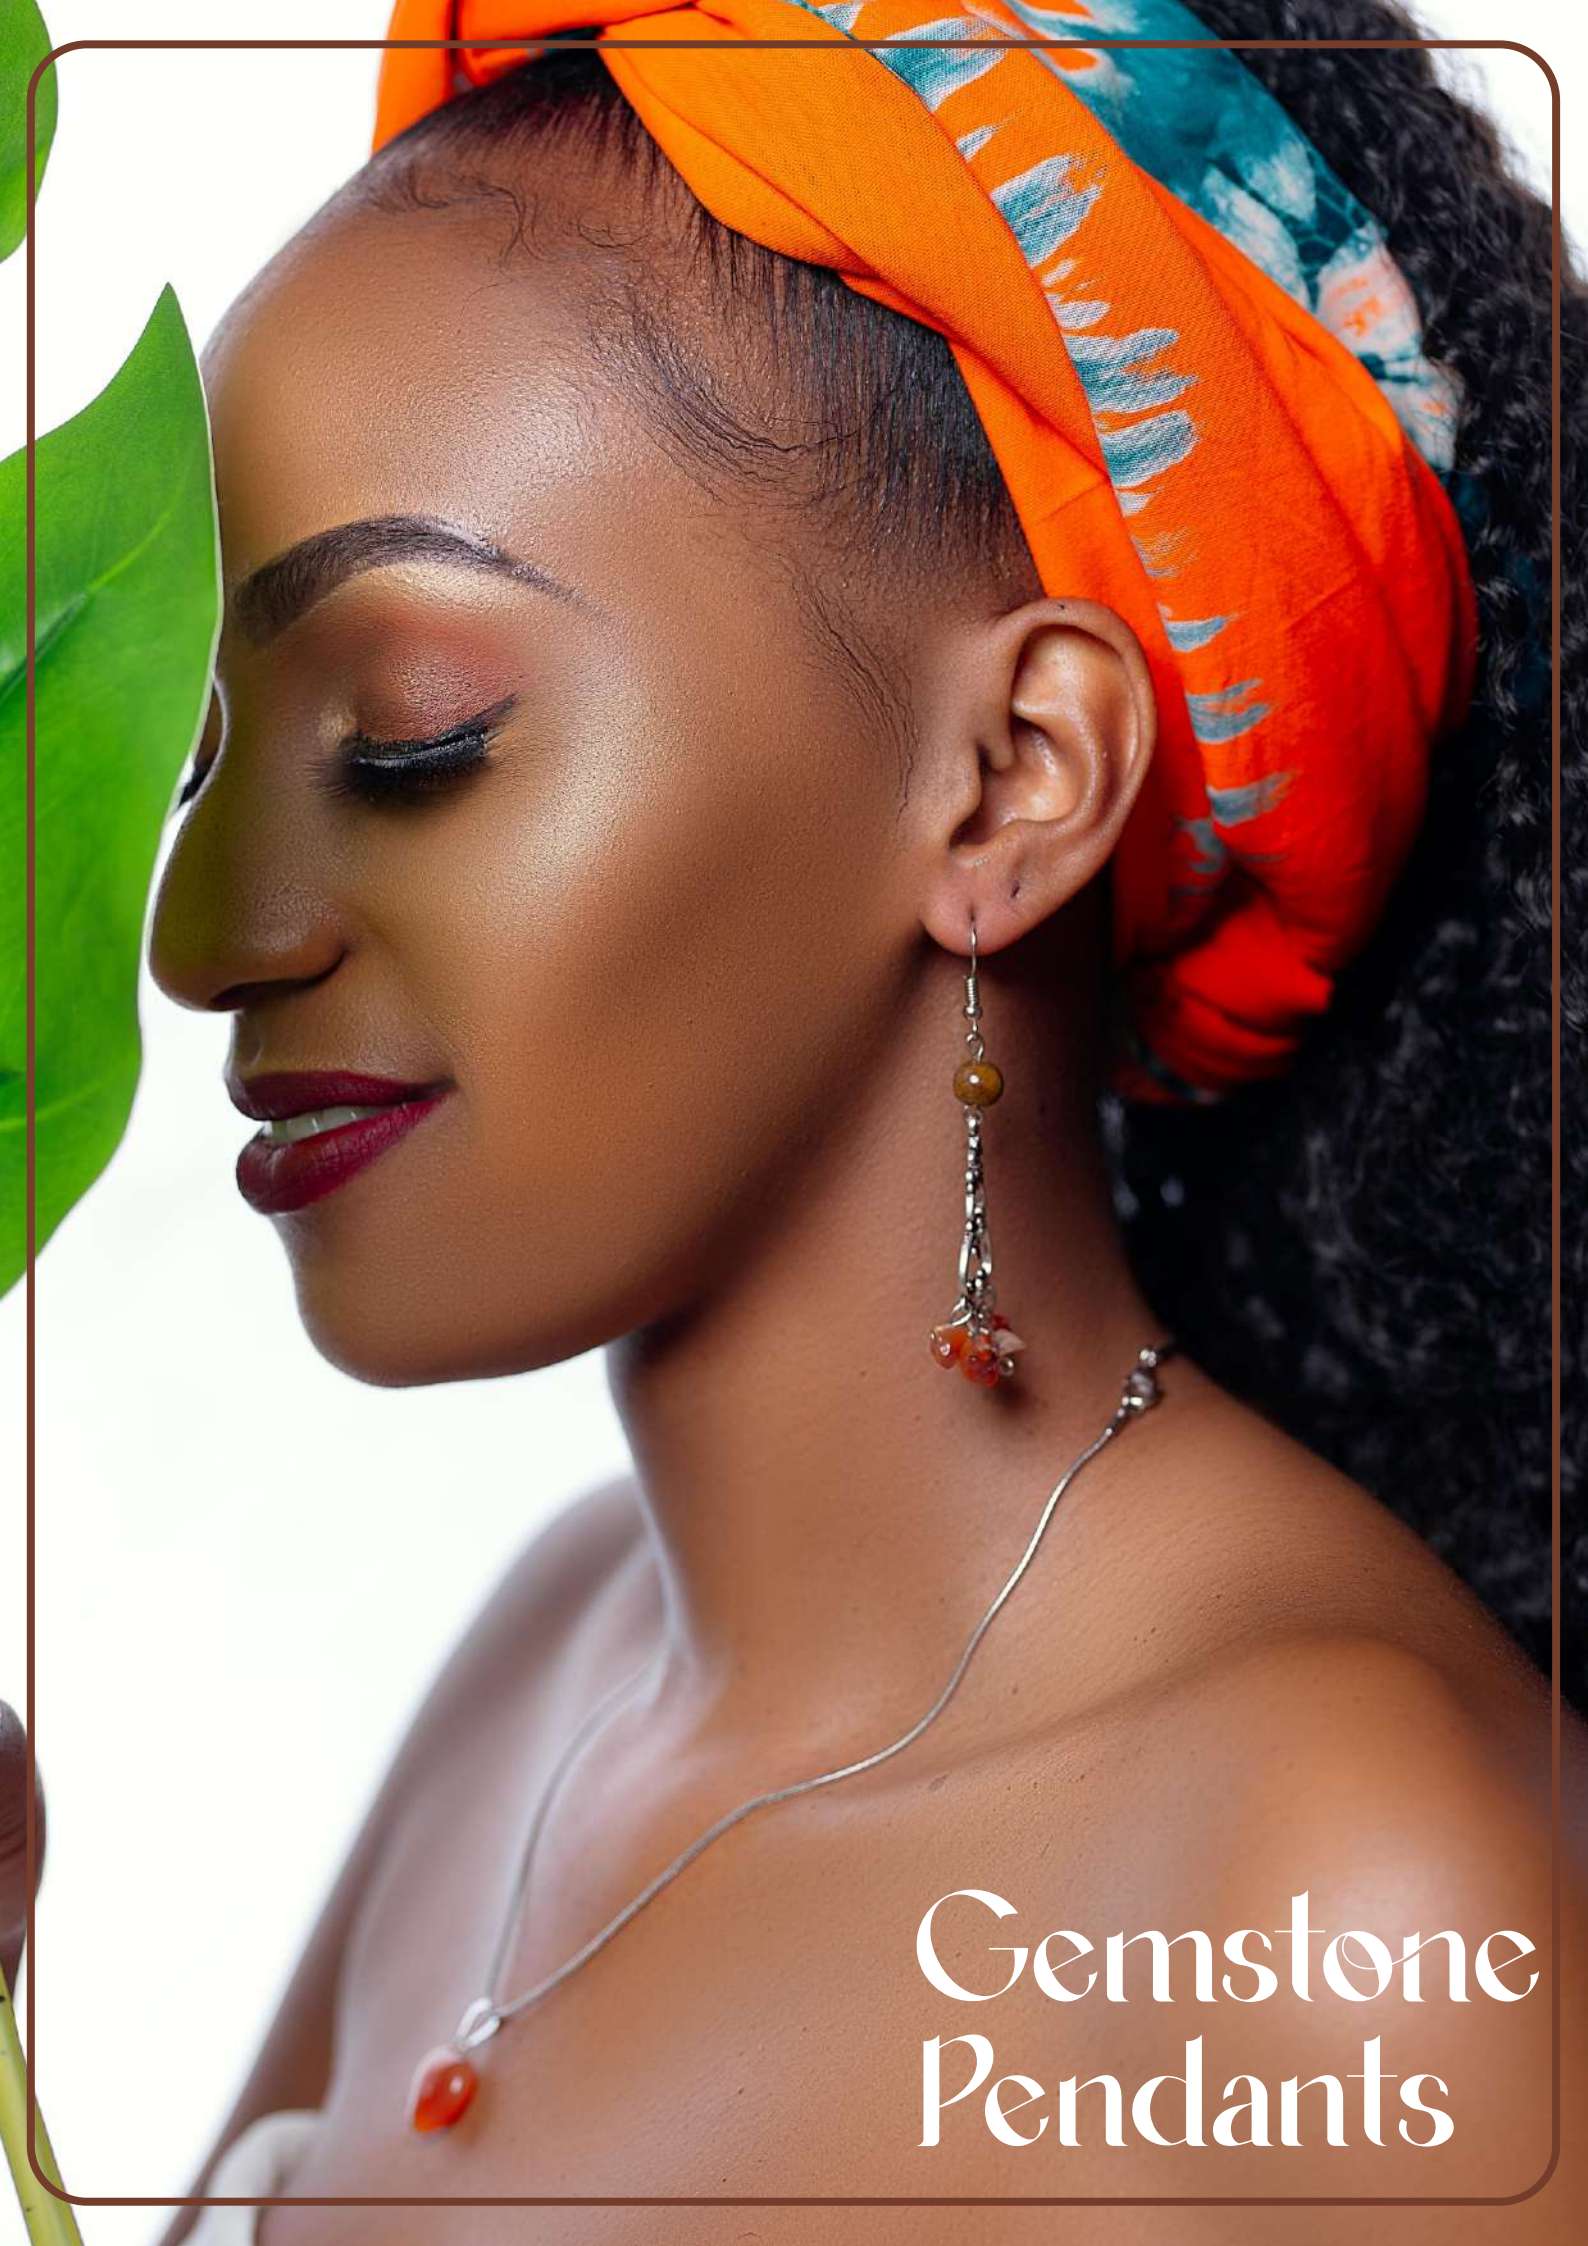

Bright Sight
Founder

BSC stands for *Bright Sight Collections*, named after its founder. It started in 2012, in Kampala - Uganda, as a small scale business making handmade jewellery using locally sourced materials. Our raw materials include gemstones, wood, white bone, cowhorn, chains, charms, glass, twines and leather.

BSC has now evolved as an online Lifestyle Boutique established in Zimbabwe with a global reach. All our products are handmade from, Jewellery, Upcycled Glass, Candles, Home Accessories and Gifts. These consist of jewelry sets, drinking glasses, vases, lamps, candles, cushions, table setting among others. All of our products can be customised according to your taste and preference. We take great inspiration from nature, cultural diversity and our surroundings to carefully choose raw materials for each unique product.

BSC contribution to environmental conservation and preservation is through our monthly Glass Bottle Cutting Workshops. These are aimed at educating our communities on the importance of upcycling glass bottles. They are very ideal for job creation, co-curricular activities, team and capacity building. I now invite you to browse our product catalogue. Thank you!
